

**M**icronova **BinLiner Bags** used for cleanroom material disposal, garment collection and raw material or product storage and transfer are made from FDA compliant LDPE and produced for use in cleanroom and aseptic environments.

Micronova **BinLiner Stands** are the perfect compliment to the liners, with easy to clean molded plastic corners and stainless steel supports that do not touch the floor.

- Available in 1 to 6 mil thickness (see chart below)
- Flat packed or on rolls, individually bagged or bulk packed
- Larger sizes gusseted to fit squared containers
- FDA compliant LDPE
- Liners available sterile and non-sterile
- Autoclavable BinLiner Stand
